

Marina Power and Lighting Lighthouse SS®

Most durable power
pedestal made in America!

Lighthouse SS®

Legacy Eaton provides power to the harshest environments with the Lighthouse SS. Using a durable stainless steel enclosure, this power pedestal can stand up to the harshest of climates. It is highly customizable and can be found from sunny Florida to frozen Alaska. For superior quality and performance, the Lighthouse SS is a perfect finding.

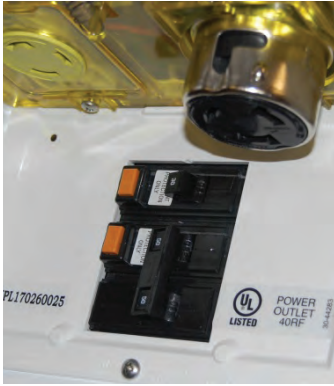

- Durable 316L stainless steel enclosure
- Custom options available to accommodate special projects
- Double sided options provide easy shore power access for two slips
- Sleek profile provides new aesthetics with legacy success
- Ideal for salt water applications and higher ampacity vessels
- Ideal for integrating ground fault monitors or GFCI breakers (up to 100A)
